Nicking Considerations

Bagshot is an outstanding representative of the NEVER BEND sire line and as such is gifted with both speed and stamina. From his female side, Bagshot has inherited exceptional conformation and soundness. Bagshot would be an excellent cross for any mare that needs added soundness and stamina in her offspring. His pedigree would be expected to nick extremely well with mares carrying Mr. Prospector, Raise A Native, or Seattle Slew breeding. Some very interesting linebreeding would be achieved by breeding to mares with Never Bend or Northern Dancer in their pedigrees such as daughters of Staff Writer, Knights Choice, Abstract, Tuff Knight, Peterhof, Sharper One, Just the Time, or Petersburg.

Dosage

Dosage Profile: 6-3-8-2-1 = 20 dosage points

Dosage Index = 1.86 Center of Distribution = 0.55

BAGSHOT's dosage numbers lean more towards stamina, suggesting that he might cross well with more speed/sprint-orientated mares.
